

ECOS Land Use Committee Meeting Agenda
Monday, November 29, 2021, 6:00 – 7:30 pm

6:00 p.m. Introductions

6:10 p.m. Infill Development - Incentives

1) Todd Taylor, County Associate Planner, will present the tasks outlined in the Grant, and the work plan's general timeline.

2) Sotiris Kolokotronis, founder of SKK Development, will provide the perspective of a leading developer of urban core projects.

How should we create incentives to encourage infill development in Sacramento County? What is the potential for infill development here? What are barriers to overcome, and how can we support more infill development?

The Sacramento County has received a \$360,000 Grant to develop incentives for infill development projects. We've been asked to provide ideas on how the County could incentivize infill.

We will discuss the prospects and advantages of sustainable infill development in the Sacramento area. Mogavero Architects will also participate in the discussion.

7:30 p.m. Adjournment
