6:00 Welcome and Introductions

6:10 **Existing Sacramento County Measure A:
What It Said, What It Has Done, What It Will Do**

Sacramento County voters passed Measure A in 2004, a sales tax to fund transportation improvements through 2039. This presentation is designed to provide us with a basis of understanding and point of reference for a possible November 2024 ballot measure. Also, is there any flexibility to modify how future Measure A revenues may be used?

Co-presented by:

- Kevin Bewsey: Executive Director, Sacramento Transportation Authority
- Liam Huber: ECOS Intern; UC Davis Environmental Management & Policy

6:40 Discussion/Q&A

We're inviting regional leaders to provide their views on the existing Measure A and a possible 2024 ballot measure, followed by open discussion and Q&A.

7:05 Updates and Announcements

This meeting is open to everyone interested in addressing some of our region's most pressing challenges.
