

**ECOS Land Use Committee Meeting Minutes
Monday April 13th, 2015
Mogavero, Notestine & Associates, 2012 K Street, Sacramento
6:00 – 7:30 pm**

Attendees: Alex Kelter, Kyle Williams, Robert Meagher, Barry Wasserman, Robert Copin, Robert Miyashiro, John Deeter, Genna Yarkin, Lynn Wheat, Alex Reagan and Ron Maertz

Kyle Williams gave a short presentation on an effort by midtown residents (Curb Sacramento) to restrict the use of leaf blowers. The Committee encouraged the group to work off of the effort of a few years ago.

The Committee had a discussion regarding the Twin Cities Equitable Development Scorecard. This item was originally introduced by Veronica Beaty, who was not in attendance. The Committee determined that it was a useful tool, but felt that most of the scorecard items were already covered in our comments on projects.

The Committee discussed our comments on Sacramento Commons which are currently being compiled. Apparently the City Historic Preservation Committee is recommending the site as a historic site, but only asking that that the current conditions be memorialized and the project approved. The Committee questioned whether it was within the Historic Preservation Committee's authority to be recommending approval of a project.

Lynn Wheat gave an update on the Elk Grove SOI expansion.

Considerable time was spent by the Committee updating its Project Monitoring List. Thanks to Dr. Meagher for all of his efforts in preparing this list and all of its attributes.

Finally, some time was spent preparing for a Land Use table at Earth Day on April 19th.
